WORLD OF RADIO HITLIST

Hi Glenn, my latest Hitlist update.
https://www.w4uvh.net/hitlist.htm

1) Updated UTC offset notations for change to DST on 8 March for Cuba (Habana R, R Progreso, & R Rebelde); and USA (R Marti, VOA, & WRMI) (I'm still retaining the VOA links just in case there's a return, although that now seems very unlikely)
2) Philippines - R Veritas Asia: Updated link to home page
3) USA - WBCQ: Added link to 'Allen & Angela Worldwide archives' for 2026
The next update is scheduled for end of March. Best wishes and 73, Alan Roe

** ALGERIA. 15140, March 5 at 0726, JBA carrier in noise level, about to assume trace of RHC not turned off; but EiBi shows one other on 15140: Ifrikya FM, Ouargla, at 0700-0725 French, 0725-1900 Arabic -- really? that long despite RHC back on later? Aoki also shows ``Ourgla`` at 07-19 (Glenn Hauser, OK, WOR)

** ALGERIA. 13855, March 8 at 0052, S9/+10 of JBM singing. EiBi shows Ifrikya FM, Ouargla at 1900-0100 Arabic except including 2000-2004 Hausa, irr. 2005-2030 English. More modulation, SVP (Glenn Hauser, OK, WOR)

** ANGUILLA. 28347 USB, March 9 at 2327, VP2EWE calling QRZ, quick contest contacts. QRZ.com: ``VP2EWE Anguilla flag Anguilla, Janusz Wegrzyn, Welches, Poland, see https://vp2.dxpeditions.org/
15,690 QSOs logged between 2026-03-04 00:24Z and 2026-03-10 00:58Z``
(Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Fri March 6 at 2259, S9+30/40 of deadair from WRMI. 2300 timesignal and RAE comes to life with Chinese, Spanish music but untango; 2321 check still Chinese (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Mon Mar 9 at 2259, WRMI IS & IDs leading up to ToH programming, then 2300 RAE relay opens in Chinese. But at 2340 check it`s JBM at S9+25/30 direct (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Tue Mar 10 at 2306, S9+15/20 Spanish song into Knoxville SDR; 2311 RAE multi-lingual ID reel, 2312 Chinese on WRMI relay (Glenn Hauser, OK, WOR)

** ARGENTINA. 28417 USB, March 8 at 0031, LQ5H calling CQ contest. QRZ.com: ``LQ5H Argentina flag Argentina, OLMOS Victor Fabian (LU3HS), Gregorio Gavier Nº 4182, CORDOBA, AR 5009, Argentina, LQ5H, special call for Activations and Contest``

--- These four-character calls proliferate in contests because: there is a premium on different prefices even if all from the same old countries; and it takes less time to pronounce them even fonetikaly

than if there were another letter! It all adds up during a contest, saving time, allowing for a few more contacts than otherwise. Unfortunately in standard fonetix all letters are two- or even three syllables, except for G = Golf, and M = Mike. Some abbreviate F = Foxtrot to merely Fox, but it sounds too much like Golf! (Glenn Hauser, OK, WOR)

** ARGENTINA. 28510 USB, March 8 at 0031, LP1H calling CQ contest. Strongest signal amongst the ones I`m logging now. QRZ.com: ``LP1H Argentina flag Argentina, RAMON DE LA RUA ( LU5HM ), " LA ESCONDIDA " - PRIVATE ANTENNA FIELD, CORDOBA, SANTA CATALINA - CORDOBA 5221, Argentina`` (Glenn Hauser, OK, WOR)

** AUSTRALIA. 28513 USB, March 8 at 0033 calling CQ contest. QRZ.com: ``VJ2X Australia flag Australia, Rob VK2XZ, Southern Highlands, N.S.W., Australia,
AUSTRALIAN CONTEST STATION -- VJ2X is owned and primarily operated by VK2XZ. The station is designed and engineered for all operational contest purposes with upto four stand alone operators at any one time. Two transmitters / recievers can simultaneously be run on the same band at any time for hunt and run operating.`` - believe I`ve heard him as VK2XZ (Glenn Hauser, OK, WOR)

** AUSTRALIA. 28521 USB, March 8 at 0035, VL4A working contest. QRZ.com: ``VL4A Australia flag Australia, Laurie E Pritchard, 34 Frost Street, Clontarf, Queensland 4019, Australia`` (Glenn Hauser, OK, WOR)

** AUSTRALIA. 28530 USB, March 11 at 2220, VK2OT, Mike in NE NSW about to go QRT, but Emilio, WD4OXT in Orlando persuades him to make one more contact. QRZ.com: ``VK2OT Australia flag Australia, Michael "Mike" Rautenberg, 1247 Firth Heinz Road, Pillar Valley N.S.W 2462, Australia`` (Glenn Hauser, OK, WOR)

** BRAZIL. 28406 USB, March 6 at 2311, PY5QW, working a JA1 in Brasuguese. QRZ.com: ``PY5QW Brazil flag Brazil, VIGAND OLSSON, RUA PADRE DEHON, 1326, CURITIBA-PR CEP- 81630-090, Brazil`` -- lots of antenna photos and some scenery (Glenn Hauser, OK, WOR)

** BRAZIL. 28310 USB, March 8 at 0029, PV2G calling CQ contest. QRZ.com: ``PV2G Brazil flag Brazil, Stephano Silva, rua José Deperon Filho 60, Santa Cruz das Palmeiras, SP 13657006, Brazil --- The antenna system is a stack of 5 over 5 over 5 monobanders on a 18 meters tower. All antennas are controlled by individual rotators that allow them to run in multiple regions or stack in a specific location. It also offers the ability to toggle antenna RX, witch allows you to obtain the best takeoff angle for the desired station.``

28640 USB, March 8 at 0037, ZW2A working contest. QRZ.com: ``ZW2A Brazil flag Brazil, DEVANIR GALLO, Rua Alameda Roma Nº 81, Mairinque, SP 18120376, Brazil`` (Glenn Hauser, OK, WOR)

** CANADA. 15034 USB, March 5 at 1543, Trenton Military, S9 with ``special report`` about Halifax. No longer with a carrier too, nor I think at my 2317 log March 4. Richard Langley points out it`s spelt Bagotville, CFB which is in the centre of Québec (Glenn Hauser, OK, WORLD OF RADIO 2237)

** CANADA. 6754 USB, March 6 at 2257, Trenton Military already here instead of 15034 USB, no carrier, time of course as ``2155z`` then Comox as of 2200, S9+10/20 (Glenn Hauser, OK, WOR)

** CAYMAN ISLANDS. 28466 USB, March 7 at 1535, ZF1A making quick contest contax. QRZ.com: ``ZF1A Cayman Islands flag Cayman Islands, CAYMAN AMATEUR RADIO SOCIETY, Savannah, Grand Cayman, Cayman Islands

--- ZF1A is exclusively a contest station and is only licensed to operate during major contests. If you worked us outside a major contest - it is likely a busted QSO. Dan Craig/N6MJ, 200 Barcelona Cir, Fullerton, CA 92835`` ARRL international callsign series shows ZBA-ZJZ for UKOGBANI, not broken down into individual colonies. I thought it might be Bermuda until uplooked (Glenn Hauser, OK, WOR)

** CHAD [non]. 9535, March 11 at 0613, harmonious ME? music, S4/S5. Must be African as this is R. Ndarason Int`l at 06-07 via Woofferton (Glenn Hauser, OK, WOR)

** CHINA. 11640, March 5 at 0729, S8/S9 soft song, Chinese announcement. Aoki & EiBi show it`s CRI Cantonese from Jinhua 831 site (Glenn Hauser, OK, WOR)

** CHINA. 15800, March 11 at 1445, S8/9+5 CNR1 jammer vs SOH; 11715 at 1451, same S9/+20 // 15800. At 1447 same situation listed on 13530 vs CODAR, but weaker S8/S9 and not // 15800, or just not synchronzed (Glenn Hauser, OK, WOR)

** CUBA. 11760, March 5 at 1551, S6/S9 of deadair from RHC and 15140 S7/S8 of DA with windhowl. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 9710, March 6 at 0709, S9+18 of deadair, the SSOB; and 11760, March 6 at 0711, S9+22 of DA with windhowl, also the SSOB. Something`s always wrong at RHC. Energy shortage but they keep burning all these for nothing! (Glenn Hauser, OK, WOR)

** CUBA. 13650, March 6 at 2323, no signal from CRI relay, and all the usual RHC frequencies are also absent. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 11760, March 7 at 1530, RHC ID, S9/+10 OK, while // 15140 mod is buried under windhowl, S9+10/20. 15230 sig also seems RHC only S4/S6. Nothing else ever listed on 15230. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 15140, March 7 at 2007, S9+20/30 of windhowl only, but pristine deadair on 11880, S9+20 both into Georgia remote. So the 20-21 English deadair will presumably shift to 19-20 from March 8 due to the imposition of nonsensical DST in most of the USA and Canada, and in the Running Dog of Yankee Imperialism, Cuba (Glenn Hauser, OK, WOR)

** CUBA. 11950, March 8 at 0049, jazz from RHC, S9+20 with good modulation; 11760 sounds like same music but buried under S9+30/20 of windhowl. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 11760, Sun Mar 8 at 1501, RHC with Esperanto theme and opening, still giving long-gone first time of 0800 Sunday on 6100; this, the second one and third time not copied, but likely all wrong too. Anyhow, this confirms that as a Running Dog of Yankee Imperialism, Cuba has indeed switched from EST to EDT of UT -4, since Esperanto had been at 1600v UT. Must keep in step with the gusanos in Miami! Otherwise I have not heard a live timecheck yet on any Cuban (Glenn Hauser, OK, WOR)

** CUBA. 9710, March 9 at 0442, S9+10/20 of dead air; and 11760, at 0444, S9+30 of DA plus windhowl. Another check at 0623: 9710 S9 DA, 11760 S9+25 DA+howl, from RHC, where something is always wrong (Glenn Hauser, OK, WOR)

** CUBA. 9710, March 11 at 0611, S9 of deadair from RHC; 11760, March 11 at 0635, S9+35 of deadair with windhowl from RHC, where something is always wrong (Glenn Hauser, OK, WOR)

** CUBA. 11760, March 11 at 1450, RHC Spanish is on S9+15/20. Not found on any other frequency, not even 15140 at 1444 (Glenn Hauser, OK, WOR)

** CUBA. 11880, March 11 at 1910 and still 1937, RHC English S9+10/15 L&C into Georgia SDR; while 15140 is off, and 11760 S8/9+5 under windhowl (Glenn Hauser, OK, WOR)

** CHILE. 28443 USB, March 6 at 2315, CE7VP, in Patagonia. QRZ.com: ``CE7VP Chile flag Chile, Javier "Javi" Capdebilla A., P.O. Box : 42, Quellon, Chiloe Island, 5790000, Chile`` (Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 4500 < 4850 < 4980 < 5060, March 8 at 0030, JBA carriers from weakest to least weak, obviously the `Urumqi four`, PBS Xinjiang domestic services along the grayline, Mongolian, Kazakh, Uighur, Mandarin, from the land of imperialist ChiCom genocide against non-Mandarins. 0110 recheck, even weakers (Glenn Hauser, OK, WOR)

** ECUADOR [and non]. 28415 USB, March 11 at 2215, HC5RF OM working XE1ADY YL as their WWA contest continues. Also heard Del again nearby. QRZ.com: ``HC5RF Ecuador flag Ecuador, RUBEN ANTONIO FLORES SANTACRUZ, CUENCA, Ecuador`` - is a volunteer fireman (Glenn Hauser, OK, WOR)

** ESTONIA. 28414 USB, March 6 at 2312, ES5/p portable LU1FAM, making very quick contest contax. He doesn`t mention Estonia, but that`s where ES prefix applies. QRZ.com shows he has operated in many foreign countries. A bit late to propagate from there, but with some exotic Doppler flutter. ``LU1FAM Argentina flag Argentina, Lucas "Luc" Maiorov, Pse follow Instruction on QRZ, Rosario, Santa Fe 2000, Argentina`` (Glenn Hauser, OK, WOR)

** FRANCE. 5975-5980-5985, March 8 at 0024, S9+20 of DRM noise. EiBi shows TDF Issoudun irr. at 00-01 to WAf, 03-04 to SEu in French (Glenn Hauser, OK, WOR)

** IRAN [non]. 12110, March 5 at 1553, JBA carrier with Doppler flutter; presumably Iran Internatonal TV via Bulgaria, per several reports in WOR iog altho not yet entered into Aoki or EiBi. Their day frequency changed and changed, but nights have stayed on 5885 (Glenn Hauser, OK, WOR)

** IRAN [non]. 5885, March 8 at 0023, JBA in apparent Persian, Iran International TV via BULGARIA. What is this? BDXC Communication explains: ``The live feed of Iran International is https://www.iranintl.com/live
(Note: Iran International is a London-based TV channel operated by Volante Media UK Ltd. It is backed by a Saudi-British investor with ties to the Saudi government. Iran has declared it to be a terrorist organisation accused of inciting riots.)`` (Glenn Hauser, OK, WOR)

** IRAN [non]. 7842 USB, March 10 at 1801, Persian numbers station probably just started at 1800, S9 into UTwente, still going at 1837, 1849 chex. No jamming audible. I recorded brief segment probably for WOR 2338. This was originally on 7910 USB, and attracted a lot of attention, is it from Iran, or against Iran? ``Thanks to info from the priyom.org monitors, this numbers station has moved to 7842 kHz at 18:00 from March 7. Unjammed (so far!) Alan Holder, G4ZBH, Isle of Wight, U.K.`` (Glenn Hauser, OK, WOR)

** JAPAN. 11825, March 5 at 0730, W&M laughing in Japanese, S6/S8, NHK at 0655-1000 (Glenn Hauser, OK, WOR)

** JAPAN. 11610, March 9 at 1527, NHK IS at S5, prior to Hindi at 1530-1550 and after Bengali at 1500-1520, per EiBi - does Yamata stay on for the entire 10-minute break? Both 300 kW due west at 270

degrees, but HFCC shows Bengali at 1500-1530 (Glenn Hauser, OK, WOR)

** JAPAN. 28555 USB, March 11 at 2222, JG1OUT, Tokyo, as heard before on his favorite frequency (Glenn Hauser, OK, WOR)

** MADAGASCAR. 11825, March 9 at 0446, soul music S9+10/20, then devotional in American English about Jesus, ``making a difference in Africa``. It`s MWV with African Pathways Radio during this hour for central Africa at 295 degrees so more or less thisaway beyond. I assume produced in Franklin TN as on the last line of page 636 of WRTH 2026 (Glenn Hauser, OK, WOR)

** MEXICO. 6185-, UT Mon March 9 at 0430, ID as ``Cultura México, señal internacional de Radio Educación`` and `Sintonía Libre`, a DX/media show, instead of `La Hora Nacional` supposedly carried by all XE stations, especially government ones, Sundays at 10 pm (and which I did confirm at 0454 on XERF 1570). Two YLs intro show, about ``la mejor de las telecomunicaciones`, with or about Solano, radio in Costa Rica, Paraguay with Daniel García Gómez; red social, etc. (Glenn Hauser, OK, WOR)

** MEXICO. 28415 USB, March 9 at 2345, XE1ADY, quick contacts, has trouble copying callsigns, high-pitched voice, child or YL? QRZ.com: ``XE1ADY Mexico flag Mexico, WhatsApp 5533753863, YUDIANA "YUDY" TORRES CLEMENTE, GARDENIA L1 MZ13 COL.MINAS PALACIO, Naucalpan estado de México, EM 53696, Mexico`` and ``Young Ladies WWA 2026 from Mar 09 to Mar 15, 2026`` -- WWA means World Wide Award, and prompted by International Women`s Day March 8 (Glenn Hauser, OK, WOR)

** MEXICO [and non]. 28415 USB, March 10 at 2218, XE1ADY, one of several more YL voices than usually on the bands, part of the WWA contest, contacting N4RMF Kevin. See yesterday`s log.

28430 USB, March 10 at 2219, XE1DEL, YL calling CQ WWA. QRZ.com: ``XE1DEL Mexico flag Mexico, DELIA "DEL" FLORES, RAFAEL VALDOVINOS 32 INT 23-A, COACALCO, ESTADO DE MÉXICO, MX 55714, Mexico --- Hola, soy Delia, Mexicana con 39 años y sólo les puedo decir que el radio me entusiasma y entretiene como a muchos de ustedes, buenos Dx's y 73´s !! Hi!!, I´m Delia, Mexican with 39 years old, and I can only tell you that HAM excites me and entertains me like many of you, good Dx's and 73's!! Del 2 al 8 de Marzo estaré haciendo llamados para el certificado del Día Internacional de La Mujer de RADIOCLUB LA RIOJA - Haz Click en la imagen para más información!!``

28398 USB, March 10 at 2215, K6YYL calling CQ YL WWA. QRZ.com: ``K6YYL USA flag USA, Kimberley I George, 620 Citadel Ave, Claremont, CA 91711, USA`` with interesting biography as a ham (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 13755, March 5 at 0728, RNZP back here from 11725, ending `Pacific Waves`, S9+20/25 and the SSOB if not the OSOB. Alan Roe also notes: ``RNZP frequency schedule has been updated March 5 to show 11725 kHz from 3-6 March {at 0559-1300}. None-the-less, RNZP noted March 5 on 13755 kHz at 0705 with a Current Affairs programme. Alan Roe, Teddington, UK`` (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 13755, March 6 at 0714, RNZP S9/+20 with Cook Islands news, the SSOB (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950 USB, March 8 at 0018, C&W music S9+20. Many reports as Mix Radio International, with some indistinct waterfall images: https://www.hfunderground.com/board/index.php/topic,159768.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 9025 AM, March 9 at 1529, S5 introducing JFK and a few words from his speech. Such a time on workdays is prime for this `presidential pirate`. Someone should TDOA/DF it, as exposing its source should not be a problem if it be a government contractor, not subject to FCC enforcement. UDXF frequency list page 723 shows on 9025 numerous USAF stations at home and abroad, but no mention of this (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 9025 AM, March 11 at 1454, JFK speech S6/S7 from `presidential pirate` (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. 5140 USB, Wed Mar 11 from ∗1401.5 UT, Oklahoma Operations Security Net [or something like that], NCS WSHM692 OM voice – this is the same call used by YL Breanna when she is NCS – is it really the same ∗station∗, or just the NCS call for whoever be in charge this week? Counts 123454321, allows ``30 seconds to tune transmitters``. Rollcall of each call once, not twice like Breanna does, and does not mention locations. I am referring to previous weeks` logs to insert that info.

** OKLAHOMA. 93.7, March 9 circa 2045 UT, KSPI-FM Stillwater missing in routine bandscan while driving around Enid. Not to be confused with 94.3 translator of 780 KSPI (AM) which is occasionally marginally audible here (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 93.7, March 11 at 2015 UT, KSPI-FM Stillwater with rock music, back on air, first check since missing 48 hours ago (Glenn Hauser, Enid, WOR)

** PUERTO RICO. 28540 USB, March 11 at 2221, KP4GSC calling QRZ. QRZ.com: ``KP4GSC Puerto Rico flag Puerto Rico, GASPAR SANCHEZ CAMACHO, HC 04 106 VILLA TAINA, YAUCO, PR 00698, USA`` (Glenn Hauser, OK, WOR)

** SPAIN. 12030, March 5 at 0733, S3/S4 open carrier, presumed REE again in strange test? instead of when scheduled around 2300, tho R. Delta International, Netherlands could also be here (Glenn Hauser, OK, WOR)

** SPAIN. 12030, March 6 at 2259, REE S9 level here equal to 9690, but less storm noise on the upper despite oppositing. 17715 also about same good level (Glenn Hauser, OK, WOR)

** SPAIN. 9690, March 11 at 2300, REE token English on Wednesdays, S9+20/40 into Georgia SDR, and almost as good on 12030 & 17715, still zero on 17755. Heavily accented opening billboard has someone saying ``Trump Always Chickens Out``, altho tacos are more Mexican than Iberian. I wonder if someone who obviously understands English so well

could with a bit more effort, even out his heavy Spanish accent? Listen to VOA more -- o, not any more (Glenn Hauser, OK, WOR)

** TURKEY. 5960.002, March 6 at 2258, VOT IS JBA vs HSNL, but not off the air. Reception into deep N America will continue to deteriorate until A26 when presumably back up to 11785, or something better, let us hope. At 2350 into UTwente, when measured, multi-lingual ID filler reel, S9+25/35. The geniuses at HFCC did away with M & S shoulder/equinoxial seasons; too much trouble, who cares about optimum propagation? (Glenn Hauser, OK, WOR)

** TURKEY. 9660.018, Sun Mar 8 from 1744, VOT with `Letterbox`, S9+15/25 into UTwente. Very little intro by Cemre, right into mail: 1) Mr --? Albanese, Palermo, Sicily, heard Italian on 11970. 2) Anatoly Klepov, Moscow, weekly report, wants March QSL. 3) Chris Marbov?, Port Alberni BC; had Chinese QRM to 9610. 4) Mr Jian? Chiang?, Guangzhou, again mispronouncing ou as oo instead of oh, a 14-year-old Cantonese or was it 40? 5) Shivanda? Pol?, secretary of a radio club in W Bengal. At 1757 OTH clikQRM starts, worse on lower side, diminished but not banished by USB tuning. 6) Maurizio --?, Rome with ham call. 7) A physical letter! from Annan? Bayn?, president of SWL club in India. Ran a quiz about VOT, what`s it called in Turkish, how many langs on SW? was 25, now 26 with Uzbek, and about that lang. Cemre says they read *all* the letters and emails on the program -- which means they don`t get much! 8) Mr Francis Waller?, Dublin, Ireland. 1808 ending, contact info, 1809.6 theme (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Tue March 10 at 2307, NO signal of VOT into UTwente. Something`s always erroneous at Emirler. But at next check 2319, S9+30/40 of Turkish-sounding song, but only .002 kHz high, making me suspect it`s East Turkistan which starts around 2310, but then I can hear its weaker undersignal. And 2323 clinching it, ``TRTVorld of news`` promo and `Conflict Zones in Africa`, how affected by Iran war. Music break and at 2337 ``with-you-every-hour`` promo, 2343 ``always-by-your-side`` promo; 2352 multi-lingual ID filler reel. 2354 s/off as if it`s the 1330 on 13635: something`s always awry at Ankara; brief IS and off 2355* uncovering Urumqi (Glenn Hauser, OK, WOR)

** TURKEY. 5960.001+, March 11 at 2259, VOT IS & IDs in English, not off the air, S9+25/35 into UTwente (Glenn Hauser, OK, WOR)

** U S A. 379 MCW kHz, March 9 at 0632 UT, RU, 25-watt NDB at RUssellvillE AR which lost its final E and never got it back (Glenn Hauser, OK, WOR)

** U S A. 397 MCW kHz, March 9 at 0644 UT, JE, 25-watt NDB `Algoa`, JeffErson City MO, alternating/mixing with 395 CA, 25-watt NDB `Harvs`, Newton KS, as I am axually tuned to 395 USB (Glenn Hauser, OK, WOR)

** U S A. 410 MCW kHz, March 9 at 0648 UT, BA, 25-watt NDB `Clifs`, Columbus IN; rarely audible vs noise level (Glenn Hauser, OK, WOR)

** U S A. 4875 USB, March 8 at 0109 net ID 4TX1, by AFA4FY and AFA4RA, discussing relays, etc. Page 298 of UDXF roster says Army MARS, altho I was thinking AFA- calls are Air Force? (Glenn Hauser, OK, WOR)

** U S A. 9837 USB, March 5 at 1555, ``3-2-1, how copy?`` hit in bandscan, and a JBA reply at 1556; callsign sounded like WG1934, about a phone patch; then a bit of ``running water``. Exhaustive UDXF frequency list on page 776 shows only:

** U S A. 15016 USB, March 7 at 0724 a crypto exercise message is underway, so I switch to // 8992 USB for better reception. Not trying to copy it, but waiting for an ``ID`` -- which never came past 0729! Unlike ``normal`` cryptos, just keeps going with letters, occasional numbers, and at times the same one in a row like SSSSSS, which would never happen ``normally``. Op got carried away? (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO monitoring: confirmed Sunday March 8 at 0730 UT on WRN via WRMIs: 5850 S9+20/25; 5950 on again for this but not other nights, S9+25/30; 7570 S9+25 undermodulated compared to the others; 7730 JBA; 7780 S9, all direct. DST ostensibly started at 0700 UT in FL, 2 am EST renamed 3 am EDT, but did not affect these broadcasts.

Also confirmed Sunday March 8 at 1138 the 1130 on WRN via WRMIs 7780

S8/S9; but S9+30 of dead air on 7570, still so at 1150. Not heard on any other WRMI frequencies.

Also confirmed Sunday March 8 until 1500 on CKUT Montreal webcast -- huh? https://ckut.ca/listen-live/ Sheldon Harvey & Gilles Letourneau had a last-minute problem uploading their own International Radio Report and asked to run latest WOR instead this week. Glad to be of help. Sheldon says, ``I have to say it was really neat to hear WOR coming over CKUT's airwaves! We are going to re-record our IRR show today and post it on our YouTube channel, even though it didn't air on CKUT. Sheldon Harvey, Greenfield Park, Quebec``

** U S A [and non]. WORLD OF RADIO 2337 monitoring: also confirmed Sunday March 8 at 2000 on IRRS SW via AM Italia, 1322.997, S7.5/8 into UTwente.

Also confirmed Sunday March 8 at 2100 on WRN Europe stream.

Also confirmed Sunday March 8 at 2234 the 2230 on SW Radio Gold, Germany, 3975.001+, S8/9+5 into UTwente.

Also confirmed Sunday March 8 at 2300 on WRMI 9395, S9+10/15 into Knoxville remote; ex-0000 in standard season.

Not confirmed Sunday March 8 at 2330 on WRMI 9455, S9+15/20 of dead air into Knoxville. I notified Jeff White by 2340, and at 2350 started IS & ID loops, ``regular programming resumes at top of the hour``. Which it does at 2400 with `Wavescan`. Unclear if a mistake or a seasonal change, since 9455 is still on the System D schedule from 2300 including WOR at 2330 Sunday. The overall skedgrid page is now dated March 8, but individual blox of it are not necessarily updated! On Monday March 9, 9455 was signing on at 2259.

Confirmed UT Monday March 9 at 0030 on WRMI 7780, S9/+10 into Knoxville SDR.

Also confirmed UT Monday March 9 after 0100 on Global Community Radio 1 webcast.

Also confirmed UT Monday March 9 from 0309 the 0300v on Area 51 webcast, as preceding rock music show, not JL this week, ran over, despite being chopped off SW WBCQ 5130 at 0300 sharp.

Thanks this week to Peter Robinson, Preston UK, for a contribution via PayPal in US funds but not necessarily, to: woradio at yahoo.com

One may also contribute via MO or check on a US bank to: Glenn Hauser, PO Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. George McClintock advises me early UT March 6: still can`t get WTTW back on the air on 5085; needs to check with consultant who is away in Vietnam (Glenn Hauser, OK, WOR)

** U S A. (7490), March 7 at 0100 on WBCQ webcast, as often, chops off FKB before he can finish his closing contact info, no disclaimer, into `Wm Tell Overture` theme of `AAAWWW`; first interjexion, ``Oho, aargh[sp?]`` and then ``Before AI takes over the world...``, so it`s yet another repeat of last week Feb 28 which was a repeat of Feb 21, which was a repeat of Feb 14 -- and no other frequencies running now either, not even 5130, checking them all from 0057 into NH SDR. AW still hasn`t replied to my inquiry about 9330 heard back on, once. From next week with the imposition of nonsensical DST, WBCQ will go along with it and start this and all other programming one real UT hour earlier, in this case 0000 UT Saturdays, to pretend it`s at the same time as before by the clock (Glenn Hauser, OK, WOR)

** U S A. 5130, March 8 at 0022, music at S9/+10 about equal to noise level, Area 51 on WBCQ. NO signal on 6160 now, or ever? (Glenn Hauser, OK, WOR)

** U S A. 9955, March 11 at 2225, S9+10/20 of dead air from WRMI into Georgia SDR, and *still* so at 2303-2313+ Hello?? Fortunately, 9395 is OK where WOR is upcoming shortly (Glenn Hauser, OK, WOR)

WRMI: See also ARGENTINA [non]

** U S A. 15555 USB, March 5 at 1545, WJHR not off the air again, S5 with over-assertive gospel huxter (Glenn Hauser, OK, WOR)

** U S A. 4840, March 7 at 0807, this WWCR is OFF, while 5935 remains. Circa 1530 both are on, day channels 13845, 7490. `Grace to You Weekend` was sked at 0800 Sat. Was it also off before 0800 for VORW? (Glenn Hauser, OK, WOR)

** U S A. 1080, March 9 at 0502 UT, huge deadair signal obviously KRLD Dallas, finally comes to life at 0506 as ``NewsRadio 1080, 24-hour breaking news center``. Well, I`ve got some broken news for you: CBS news on the hour was suppressed, and you didn`t notice? During that it also seemed the IBOC noise peaking on 1067 & 1093 was missing (Glenn Hauser, OK, WOR)

** U S A. 1090, March 10 at 0013-0017 UT, weak talk signal via E/W longwire, no change at all circa 0015, which is local sunset time for March at KAAY Little Rock, and signal ought to drop out here, but only

if there be one in the first place. I have been trying to confirm its new operation. There is a SAH between two weak signals of 76/minute, or 1.27 Hz. But I don`t see any clear 1.3 Hz differences between likely 1090 stations at https://mwlist.org/mwoffset.php?khz=1090 -- such as KAAY, KEXS, KMXA, XEAU (Glenn Hauser, OK, WOR)

** U S A. 1290, March 9 at 0459 UT, ad for upgrading kitchens with a 309 area code, and fading during ID, WIRL, Peoria IL; U4 5/5 kW (Glenn Hauser, OK, WOR)

** U S A. 1430 kHz, March 9 at 0456 UT plugging an April arts event at Cathedral high school in Houston, so KSHJ, U4 5/1 kW; altho address in San Antonio. I assume call alludes to ``sacred heart of Jesus`` (Glenn Hauser, OK, WOR)

** U S A. 1480, March 8 at 0058 UT, Spanish overcoming Vietnamese, 0101 plugging Christian stuff in Houston, so KLVL R. Vida, Pasadena, U4 5000/500 whilst Viet is KNGO, Dallas, U4 50000/1900 watts which is related to or even simulcasting better heard 1560 KGOW Bellaire = Houston (Glenn Hauser, OK, WOR) see also VIETNAM [non] just below

** VANUATU. 7260, March 10 at 0615, R. Vanuatu, S6 direct with music. Ron Howard was hearing it on 9960 as early as 0235 and as late as 0458 via NZ remote (Glenn Hauser, OK, WOR)

** VIETNAM [non]. Re my 1480 log mentioning KNGO Dallas: Ngo is a common? name, or once well-known, as in Ngo Dinh Diem or rather, Ngô Đình Diệm, a president of Vietnam South. But what does ngo mean as a word? Google translate says `dainty` without any accent, but with the circumflex, means ``corn``. Now we know. There are websites trying to explain exactly how to pronounce his full name. It seems that the crossed-D is like English D, while the plain D is more like our J - or ``dj``. There is huge info about him at https://en.wikipedia.org/wiki/Ngo_Dinh_Diem -- but does KNGO Dallas callsign allude to him, to dainty, or to corn? The 1560/1480 website https://vietradio.com/ displays the ID in VV but not copyable with all the diacritix: Dai Phat Thanh Viet Ngu but Google translate transforms it to: Đài Phát Thanh Việt Ngữ (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6961/6962 approx., March 8 at 0017, strange sounds, sort of wind-howly, can`t pinpoint them, no carrier, and no obvious USB `center` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7654-7715 approx., March 10 at 0618, very wideband 61 kHz multi-carrier, multi-tones beating against each other, S9+30 amid. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7748-7771 approx., March 6 at 0719, wideband buzz at S9+22 midpeak. This is quite more rapid and lower-pitched than the multi-tone/multi-carriers I often report. What`s it? These fit neatly far enough between two WRMI frequencies, 7730 & 7780 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15068.5 USB approx., March 6 at 1508, JBA 2-way in Spanish, like the 15068.4 unID March 4 at 2318. Marine or aero smugglers? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 25935 LSB, March 6 at 2303, Brasuguese CBish, beeps and reverb applied. Only active frequency in this area at the moment. LOTS of other S American Spanish/Brasuguese to be heard on 11 and 10 meters (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 26585, March 11 at 2210, multiple AM/SSB signals mixing and hetting in CB = Cacophony Band! And many other spots in the 26 MHz

range far below the N American Cacophony Band, probably mostly Latin America (Glenn Hauser, OK, WOR)
